HIGHLIGHTS OF QUALIFICATIONS

- Business Systems Analyst with 9+ years of experience leading 0-to-1 implementations of multi-subsidiary Workday HCM, NetSuite, Salesforce, ZipHQ Procurement, Ramp Travel & Expense Management for hyper-growth companies with over \$5B+ ARR, \$3B+ procurement and expense budget, and 1K+ headcount.
- Led cross-functional automations and integrations projects across IT, BizOps, HR, Finance GTM, and R&D from requirements gathering, designing process flow, and configurations to coordinating UAT, documentation, training of 120+ automated data flows such as payroll ledgers, HR-driven IT onboarding, OpEx by headcount, procurement tasks and approvals, and more.
- Built real-time board deck-ready business intelligence stack (Looker, Retool, Airflow, AWS RDS), leveraged by 100+ users across executives and leadership, enabling analysis of planned budget vs. actual of AI data centers infrastructure, revenue-generating deployments, revenue per megawatt of energy capacity, and other operational efficiency metrics.
- Deployed 3 company-wide Finance AI Agents across NetSuite, ZipHQ, Navan, and Workday, enabling 1,000+ employees to converse and action through natural language with 2,000+ requests resolved per day.

SKILLS

- **Business Systems:** NetSuite, Workday HCM, ZipHQ, Navan, Brex, Ramp, Adaptive Planning, FloQast
- **Integration Systems:** Workato, Fivetran, Airflow, AWS (S3, Lambda, Gateway), Retool, Zapier
- **Programming:** JavaScript, Python, SQL, various API formats (JSON, XML) and protocols (REST, Event-Based, Polling, SOAP)
- **Business Systems Admin:** Value stream mapping, requirements gathering, stakeholder management, documentation, user training & enablement, UAT coordination, change management, business process improvement
- **Financial & HR Modules:** Order-to-Cash (AR, Cash, Revenue Management), Procure-to-Pay (AP, Expense), Record-to-Report (GL, Fixed Assets, Financial Close), HCM (Benefits, Compensation, Time & Absence, Talent, Payroll)

PROFESSIONAL EXPERIENCE

LAMBDA

San Francisco, CA

SENIOR BUSINESS SYSTEMS ANALYST

Aug 2025 – Present

- Built real-time and board deck-ready business intelligence dashboard (Looker, Retool, Airflow, AWS RDS) leveraged by 100+ users across executives and leadership, enabling analysis of a \$5B ARR and \$3B Capex planned budget vs. actual of AI data centers infra, revenue-generating deployments, revenue per compute, and other operational efficiency metrics.
- Designed and configured project accounting to automate \$1.5B+ AI/ML compute expense calculations, recognitions, and analysis across procurement, bills, T&E, fixed assets, and leases by projects from Coupa, NetSuite, and AWS data warehouse.
- Led cross-functional Workday to NetSuite integrations—gathering requirements from Finance and Payroll stakeholders, configuring integration workflows, coordinating UAT, and automating global payroll journals (including PEO and EOR) and allocated expenses for 700+ headcount across 10+ countries, accelerating month-end close by 5 days.

SERVICENOW (via acquisition of Moveworks)

San Francisco, CA

SENIOR MANAGER, BUSINESS SYSTEMS

Oct 2022 – Aug 2025

- Led Workday HCM migration from requirements gathering and alignment across HR, Finance, and IT to configure and implement HR modules (Advanced Compensation, Time & Absence, Talent, Benefits, Payroll), coordinate UAT, and deploy automated integrations (payroll GL to NetSuite, benefits/leave calculations, HR-driven IT provisioning) all in 3 months.
- Designed and configured \$30M+ procurement, expense, and travel workflows across ZipHQ, Navan, and NetSuite, resulting in \$300K savings per year, automated reconciliation, and \$50K rebates per year—earning a promotion to Senior Manager.
- Led Finance Systems ITGC and SOX 404 audit-ready governance across Identity & Access, Segregation of Duties, Change Management, and SDLC, successfully completing 4 financial audits, 1 IRS examination, and acquisition from ServiceNow.

AMAZON

San Francisco, CA

BUSINESS SYSTEMS MANAGER

Feb 2021 – Jan 2022

- Led engineering optimization of automated data flow integrations of \$1B+ procurement, travel, and expense management programs by implementing concurrency, earning a promotion from Business Systems Analyst to Manager.
- Implemented and maintained business intelligence stack (Fivetran, AWS RDS, Fivetran ETL, DBT, Looker) to automate 10+ real-time dashboards leveraged by 50+ users across leadership, Finance, and Fulfillment.

SAMSARA

San Francisco, CA

SENIOR BUSINESS SYSTEMS ENGINEER

Feb 2020 – Feb 2021

- Configured and implemented APIs, enabling 15,000 customers to real-time self-service access of 2K+ weekly NetSuite invoices and option to request defer billing features during COVID-19 that eliminated 200+ hours per week of manual collection.

ORACLE

Denver, CO

TECHNICAL CONSULTANT

Jul 2018 – Jan 2020

- Led 80+ NetSuite implementations for high-growth (Coinbase, Addepar) and enterprise clients (Procter & Gamble, Girl Scouts) through requirements gathering, configuring customizations and integrations, conducting UAT, creating documentation, and training end users through guided walkthroughs across Order-to-Cash, Procure-to-Pay, and Record-to-Report modules.

PROJECTS

FINANCE DATA PIPELINE

github.com/mykkelol/netsuite-data-pipeline

- Developed an open-source NetSuite data pipeline utilized by Meta and eBay developers to help accounting teams comply with India MCA Amended Rule 3(5). Built in Python & JavaScript using Airflow+Docker, PostgreSQL, & AWS S3.

EDUCATION

UNIVERSITY OF COLORADO BOULDER, BACHELOR OF SCIENCE, FINANCE
